

Zharzhan Kulmyrza

Frontend Developer

I am frontend developer with more than 4 years of experience in product-oriented companies. My main focus on each project I work on is maintainability, performance, usability of an interface.

Work Experience

Frontend Developer, MyCRM

March 2018 - July 2018

[MyCRM](#) is CRM system for more than 200 clinics, beauty salons and others. Refactoring legacy code on frontend. Moving old features of the app to new frontend. Optimizing development tools.

Frontend Developer, Nursat+

May 2017 - April 2018

Nursat+ is R&D department of biggest telecom provider Kazakhtelecom with 4 million users.

Working on frontend of fintech startup([KTPay](#)) which contains e-wallet, money transfer and payments. Raised intern frontend developer to junior. Created entire architecture of frontend. Developed SSR, API proxy and session storage for frontend application.

- Communicate with designer
- Teach intern frontend developer
- Work with scrum+kanban methodology

Frontend Developer, HiPO

June 2014 - September 2017

[HiPO](#) is HR startup I joined at a very start. As only frontend developer created entire frontend architecture from scratch. At first, I created MVP on Bootstrap. Then successfully launched a new design. Created 30+ landing pages for partners such as Santo, World Class, McDonalds, Veon, Uber etc.

- Communicate with designer
- Implement and test new ideas
- Code marketing emails

Frontend Developer, Chocomart

June 2013 - June 2014

[Chocomart](#)(e-commerce) is part of Chocofamily holding(more than 1 million users). Before I joined the team there weren't any frontend developers. Did a lot of refactoring. Separated frontend and backend from monolithic application. That gave us boost on coding new features and optimizing website for a launch. As one of two frontend developers of consulted other products in holding.

- Refactor legacy code
- Add new features
- Developed marketing html emails

Education

Bachelor of Computer Science, Suleyman Demirel University

2009 - 2013

I was president of IT club, prefect and volunteer at charity fund. Was awarded Internet Person of year 2014 at university.
